

Entrance exam for Psychology BA at University of Debrecen

We have a conversation with our applicants online. We ask for a short introduction themselves, then we have a conversation based on the material we have set as reading for this exam. We offer a material accessible online freely, and it is up to the applicants which chapter out of four chapters (6), (8), (11), and (14) they would like to discuss with us. What we expect from you mainly to describe the reason for your choice, and to detail what did you find interesting in the topic. Furthermore, we suggest to read the first chapter to get a rough impression about psychological subject, but this chapter is not the part of the entrance exam.

The online book:

[Introduction to Psychology \(umn.edu\)](#)

Introduction to Psychology utilizes the dual theme of behavior and empiricism to make psychology relevant to intro students. This book help student organize their thinking about psychology at a conceptual level. Psychology matters because it helps us understand behavior and that our knowledge of psychology is based on empirical study. For questions about this textbook please contact textbookuse@umn.edu
